

## Cardinal Health™

### ChemoPlus™ IVA Seals for I.V. Bags

- ChemoPlus™ IVA seals for I.V. bags are sterile seals that protect point of entry of I.V. admixtures from contamination and accidental double dosing
- Dual warning system in which seals self-destruct upon attempted removal and needle punctures are highly visible in laminated foil
- Not made with natural rubber latex and PVC-free, reduces latex and other allergies
- Adhere to I.V. add ports to provide protection. Reduces accidental double dosing and instantly alerts staff a drug has been added
- Self-destruct upon attempted removal and cannot be effectively reapplied
- Tamper evident security

### ChemoPlus™ IVA Seals for Bottles and Vials

- ChemoPlus™ IVA seals for bottles and vials are sterile seals that protect point of entry of I.V. admixtures from contamination and accidental double dosing
- Liner, dispenser and core are non-linting and can easily be wiped down
- They have a dual warning system in which seals self-destruct upon attempted removal, and needle punctures are highly visible in laminated foil
- Adhere to I.V. add ports to provide protection. Reduces accidental double dosing and instantly alerts staff a drug has been added
- Not made with natural rubber latex and PVC-free, reduces latex and other allergies
