Nestlé Health Science

IMPACT® PEPTIDE 1.5

- Contains a unique, evidence-based blend of arginine, omega-3 fatty acids and nucleotides. When given as early enteral nutrition, this blend of immunonutrients, present in other IMPACT® formulas, has been shown to support the immune system and help reduce rates of infection, LOS and ventilator days in surgical and critically ill patients
- Balanced peptide profile and 50% of fat as MCT to support absorption and tolerance
- Nutrient profile designed to support wound management, major elective surgery, volume sensitivity, increased caloric needs, early enteral feeding, transition from TPN
- Suitable for lactose intolerance, gluten-free and low-residue diets

Providing a clearly advanced swallowing solution for people with dysphagia
We call it the **N**FACTOR

THE BENEFITS ARE CLEAR

- Improves swallowing safety*1
- When placed in water, remains clear
- Does not over-thicken over time
- Tasteless, Odorless, & Lump-free
- Mixes and dissolves easily in a wide range of foods and beverages

RESOURCE® ThickenUp® Clear
A clear, consistent, and easy-to-use thickening powder to provide swallowing support for people with dysphagia.

Nutrition. The factor that can make a difference.™

* Clinically shown to improve swallowing safety by reducing the risk of aspiration compared to thin liquid in dysphagia patients.
