Find the Right Fit

CareMates Gloves should fit closely but should not be too tight. Prolonged use of gloves that are too tight-fitting may eventually contribute to health problems including joint pain, thumb fatigue, and carpal tunnel syndrome.

How to Find the Right Size

To determine the right size, align hand where thumb joins palm. Measure the widest part of your hand and line up with the sizes to the right.

NITRILE	VYTRILE	VINYL	LATEX
