**What disease or ailments does Respiratory Therapy treat?\***

Used to help a person with conditions such as chronic obstructed pulmonary disease (COPD), emphysema, chronic bronchitis

**Causes of these conditions?\***

- Rapid growth in the aging population
- Rising urbanization and pollution levels
- Lifestyle changes

**Most common non-pharmaceutical treatment?\***

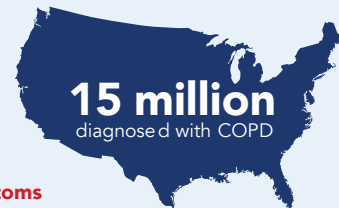

Supplemental oxygen therapy

**Oxygen Therapy**

**Who's affected?\***

12 million adults in the US are thought to be **undiagnosed** with COPD \*\*\*

**Symptoms of COPD:\*\*\*\***

- "Smoker's Cough"
- Shortness of breath
- Chest tightness
- Wheezing, whistling or squeaky sound when breathing

**How does it work?\***

Oxygen therapy is a treatment that delivers oxygen gas for you to breathe, increasing the amount of oxygen your lungs receive and delivers to your blood

Sources: \* Global Industry Analysts, Frost & Sullivan; estimates \*\* Respiratory Care Devices Market, Markets and Markets \*\*\* <https://report.nih.gov/nihfactsheets/ViewFactSheet.aspx?csid=77> \*\*\*\* <https://www.nhlbi.nih.gov/health/health-topics/topics/copd/signs>

**HCPCS Code:** E0601, E0562

**What disease or ailments does CPAP Therapy treat?\***

Used to help a person with obstructive sleep apnea (OSA) breathe more easily during sleep

**Obstructive sleep apnea symptoms: STOPBANG\***

- |                     |                    |
|---------------------|--------------------|
| Snore               | Body mass index    |
| Tired               | Age                |
| Observed apnea      | Neck Circumference |
| high blood Pressure | Gender             |

**Most common treatment?\***

Continuous Positive Airway Pressure (CPAP) machines

**Who's effected?\***

**1** in every **15** Americans (18mm) have sleep apnea

13mm Americans have an **undiagnosed** case of sleep apnea

Average age is 40 but **can affect anyone**

**How does it work?\***

A CPAP machine increases air pressure in your airway so that your airway doesn't collapse when you breathe during sleep
