For Knee High, Measure Ankle and Calf. For Thigh High, Measure Ankle, Calf and Thigh. For Waist High, Maternity and Chap, Measure Ankle, Thigh and Hip.

Support Hosiery

Dr. Scholls

Dr Scholls® Compression Support Socks for Men

- Full 1-year customer satisfaction guarantee
- Graduated compression socks are properly constructed by maximizing pressure at the ankle with a gradual release as it goes up the leg. This scientifically designed sock technology encourages blood flow to move up the leg to help reduce swelling and blood clots while energizing feet and legs.
- A perfect fitting sock is critical when it comes to graduated compression socks. It is most important to measure your ankle and calf circumference to select the sock that fits you perfectly.
- Dr. Scholl's compression socks are knit with a smooth toe seam to eliminate the nagging irritation caused by standard, bulky seams

BSN Jobst

Jobst® Anti-Embolism Knee High or Thigh High Stockings

- Latex-free; soft, breathable fabric; lightweight and comfortable
- Designed to reduce the risk of deep vein thrombosis in recovering patients
- Apply gradient compression highest at the ankle and gradually decrease pressure up the length of the leg to improve blood flow—a major factor in minimizing the risk for DVT
- Designed for patients who are resting in bed or otherwise immobile (non-ambulatory)
- For both men and women
- 18mmHg compression

CIN	Mfr. No.	Description	Size	Qty.
